....Accident.-There was an explosion in Doctor Ayer's Laboratory, yesterday, which caused some excitement in the vicinity. Ayer's Pills are manufactured under an enornous pressuro,in cylinders, like cannon, which sometimes prove too weak for the compressed forces, and burst with terrific violence. Fortunately the pieces do not fly far, so that no one has ever been hurt by them. The action is more like ice than powder; but it makes Pills which all the world acknowledge ARE Pills, -[Daily Journal, Lowell.
